Shell Material:

Steel

Tubing Outside Diameter:

0.625 inches

Tube Quantity:

160

Pass Quantity:

4

Condensing Method:

Cooling water flowing through tubes

Tube Sheet Material:

Copper-nickel alloy, mil-c-15726, comp 70-30

Water Box Material:

Copper-nickel alloy, mil-c-15726, comp 70-30

Cooling Surface Area:

355.000 square feet

Special Features:

Port side

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T241-a
