End Application:

Mars class afs

Capacity Rating:

1800.0 gallons per hour

Connection Type:

Threaded internal pipe condensate return

Maximum Steam Working Pressure:

75.0 pounds per square inch

Heat Transfer Method:

Indirect

Features Provided:

Temperature regulating valve

Connection Diameter:

3.000 inches steam inlet

Special Features:

Trap, strainer and gauges provided

Material:

Iron shell

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A28500
