End Application:

Waters class tags045

Heat Transfer Method:

Indirect

Material:

Stainless steel

Special Test Features:

operating pressure 300psi; test pressure 450 psi; operating temperature 400f

Test Data Document:

9g265-a-834featgthis is the oil cooler horizontal model number 174 standard (includes industry or association standards, individual manufactureer standards, etc.).

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A28500
