Shell Material:

Aluminum

End Application:

Used on ticonderoga class cg (47)

Tube Length:

19.500 inches

Operation Method:

Steam

Unit Type:

Evaporative

Tubing Outside Diameter:

1.000 inches

Pass Quantity:

2

Condensing Method:

Steam outside tubes

Tube Sheet Material:

Aluminum

Water Box Material:

Aluminum

Tube Attachment Method:

Welded both ends

Special Features:

Consists of a 1/2 hp; tefc motor and a 3/16" thick cast aluminum blower section

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T241-a
