Diameter:

10.000 inches

Length:

78.750 inches

End Application:

Cooler fd

Heat Transfer Method:

Indirect

Product Name:

08072 bcp exchanger

Special Features:

Working pressure is 125 psi for both the shell and tube side; has 3" female npt for connection to pipe, also contains two bottom 3/4" npt drain ports

Height:

10.500 inches

Material:

Brass tubes

Style Designator:

Coiled plain type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A28500
