End Application:

Navy equipment

Connection Type:

Flanged pipe heated fluid inlet

Heat Transfer Method:

Direct

Effective Heat Transfer Surface Area:

82.9 square feet

Product Name:

Heat exchanger plate type

Special Features:

Model: m10-mfg; dry weight: 800 lbs; gasket material: nitrile; flow rate: 200,000 lb/hr/water; design pressure: 150 psi; design temp.: 200 degrees f

Material:

Titanium plates

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A28500
