End Application:

Deminerlized water cooler, no. 06045 navy bcp

End Item Source:

51900

Diameter:

8.500 inches

Product Name:

Bonnet, packed end

Special Features:

1at packed end bonnet, lubricate machined surfaces of feet, bushings and collars w/molybdenum disulphide grease; after installation collars must lie equidistant between match marks; .875-14 unf-28 tap per ms1614 (ships) drain and (ships) vent

Material:

Copper alloy

Material Specification:

Astm b584 assn standard single material response

Style Designator:

End bonnet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A28500
