Fluid Cooler Core Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4420-01-504-5631

## **End Application:**

Pf50 mde jacket water cooler

### **Core Diameter:**

48.000 inches

## Core Length:

6.500 inches

## Core Width:

6.500 inches

# **Tube Quantity:**

39

# Core Height:

26.125 inches

### Heat Transfer Method:

Indirect

#### **Product Name:**

Pf50 plate pack assembly

# **Special Features:**

Colloquial name: core assembly, fluid cooler; gaskets are permanently adhered to the heat transfer and end plates

### Material:

Steel comp 316 plates

# Material Specification:

Aisi316 assn standard single material response plates

## Style Designator:

Plate, rectangular or square

#### Shelf Life:

N/a

#### Unit Of Measure:

---

# Demilitarization:

No

### Fiig:

A28500
