Inside Width:

77.000 inches

Maximum Operating Temp:

650.0 degrees fahrenheit

Inside Depth:

132.000 inches

Inside Height:

84.000 inches

Temperature Control Method:

Automatic

Circulation Method:

Forced

Cabinet Door Quantity:

2

Normal Operating Temperature Range:

+450.0/+650.0 degrees fahrenheit

Special Features:

Floor mounted

Reference Number Differentiating Characteristics:

As differentiated by heat source

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T242-b
