End Application:

Autoclaves used in bonded repair functions

Special Features:

6autoclave composite control; includes multiple operation base controller, terminal, printer, data acquisition, control interface system and dielectric monitoring system to provide computer analyzer data on pressure, vacuum, temperture, values, etc

Fsc Application Data:

Industrial ovens and furnaces

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T242-b
