**End Application:**

C-5 and b-52 aircraft

**Special Features:**

Nbonding chamber, pressurized; used to cure material applied between afct parts to bond them together with heat and pressure; measures 6 ft. By 8 ft., 150 psi, 500 deg. F.; automaticallycontrolled by micro-cumputer

**Fsc Application Data:**

Industrial furnaces and ovens

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T242-b
