End Application:

C-5 and b-52 aircraft

Special Features:

Nbonding chamber, pressurized; used to cure material applied between afct parts to bond them together with heat and pressure; measures 6 ft. By 8 ft., 150 psi, 500 deg. F.; automaticallycontrolled by micro-cumputer

Fsc Application Data:

Industrial furnaces and ovens

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T242-b
