Special Features:

Unit used to deliver 500 scfd of dry air pressure of 0 to 15 psig. Max.Of 750 scfd under emergency conditions: mounting design floor, wall relay rack; employs principle of compression and chemical adsorption; operation automatic; 115v, single-phase, 60 hertz, 3.5 amps; size 19 in. W., 10 3/4 in. Dp26 in. H; weight 65 lbs.; air humidityunder 2 pct. At 70 deg. F.; dew point -40 deg. F.; operating temp. Maximum 120 deg. F. Min 35 deg. F.

Fsc Application Data:

Driers, dehydrators equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T247-b
