End Application:

Mini-mutes remote emitting unit, communications system

General Description:

Approximately 8 in. Wide, 18 in. Long, 15 in. High; normal output: 300 scfd (0.21 cfm); emergency flow rate: 600 scfd (0.42 cfm); dew point: below neg 40 degrees f or neg 40 degrees c; output pressure: 0 to 30 psig; power: 115 vac (275 w); air compressor: 1/3 hp direct drive, oil-less diaphragm, thermally protected motor; low pressure alarm works at: 1.5 psig; circuit protection: 5 am line fuse; operating pressure: 40 psig; output air connection: 1/4-18 npt female pipe thd; ambient temp: 32 degrees f to 105 degrees f, intermittently up to 125 deg; humidity indicator: visible (blue for dry, pink for wet); humidity alarm: at 2 pct rh, automatically bypasses humid air, common remote connection; indicators: tank pressure, line pressure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
