Body Material:

Plastic

Filtering Material:

Plastic

Desiccant Type:

Molecular sieve and silica gel

Bodyheight:

12.000 inches

Bodydiameter:

2.000 inches

Dispersion Tube:

Included

Line Type For Which Designed:

Liquid

Special Features:

150deg psig internal pressure at 150deg f; filtration rating 40 microns absolute; 0.29scfm; molecular sieve 0.125dia pellets or beads; silica gel per mil-d-3716, type iv, grade h

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T247-b
