Body Material:

Aluminum

Filtering Material:

Felt and plastic

End Application:

4610-01-219-8707

Desiccant Type:

Alumina, activated

Bodylength:

7.000 inches

Bodydiameter:

1.620 inches

Dispersion Tube:

Not included

Line Type For Which Designed:

Suction

Special Features:

Inlet and outlet 1/4-18npt; psi150; removes particulate contamination to 0.5 micron in gas or control air applications and 1 micron in liquid systems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T247-b
