**Special Features:**

Outdoor or wall mtg; 0.5 psig discharge pressure; 0.19 scfm flow rate; -40 f maximum dew point; automatic regeneration; 120vac, 50/60 hz supply voltage; 120vac, 1a spdt summary alarm relay; rs-422 communications interface; 1/8 in. Barbed hose fitting pressure connection; no. 6 screw summary alarm relay connection; 32-130 degrees f operating temp; pressure, temp, flow rate, drying unit status and duty cycle displayed; low/high pressure, low/high temp, low line voltage or excessive compressor operation warning/alarm

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T247-b
