Overall Length:

12.200 inches

Overall Height:

16.800 inches

Overall Width:

10.250 inches

End Application:

H-13m-fm-400, cable term. Cabine

Accessory Components And Quantity:

Units contain a single line install. Kit-25ft. Of 3/8 in. Poly tube, shutoff value, 1/8in.Npt to 3/8poly. Connector and a 1/8in. Npt street elbow

Wattage Rating:

390.000 watts

Voltage In Volts And Current Type:

115.0 ac

Product Name:

Med. Programmable automatic membrane dehydrator

Special Features:

Xt300 dehydrator operates under the control of a micoprocessor containedin a companion xh-1, xh-4 orxh-8 linemonitor to function.Xt-300-92015 has aflow rat (scfm)of 0.3 pressure(psig)0.3-15, dew pt. (Of).50, recom. Volume(ft3)2-80, freq(hz) 50/60, oper. Temp.(Of) 34 to 120, prom. Alarms for low-high pressure and excess run, fixed alarm for high humidity at 7.5%rh

Functional Description:

Xt300 seriens dehydrators are for med. Volume microwave cellular and broad cast systems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
