Body Material:

Steel, corrosion resisting

End Application:

F/a-22 raptor

Desiccant Type:

Alumina, activated

Dispersion Tube:

Not included

Special Features:

Summittal nomenclature: desiccant cartridge

Supplementary Features:

Replacement cartridge provides dry storage for sensor which is separated from desiccant by very fine stainless steel mesh (thickness approx. 5mil)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T247-b
