Overall Length:

10.000 inches

Overall Height:

27.700 inches

Special Features:

Twin desiccant towers; inlet air pressure 60 to 150 psig; temp range 35deg to 110 deg; power con. 10 watts; standard model; flow 50; timer controlled shuttle valves

Material:

Aluminum alloy or rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
