**Overall Height:**

38.000 inches

**Overall Width:**

30.000 inches

**Special Features:**

Positioned at outlet of compressor; used by scuba divers, pilot air, fire and rescue workers, hazardous environment workers

**General Description:**

Max cfm 40; maximum operating temp 120 degrees f; tensile strength 83000; min wp 2000, maximum wp 5000 cylinder matl aluminum

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
