Overall Height:

38.000 inches

Overall Width:

30.000 inches

Special Features:

Positioned at outlet of compressor; used by scuba divers, pilot air, fire and rescue workers, hazardous environment workers

General Description:

Max cfm 40; maximum operating temp 120 degrees f; tensile strength 83000; min wp 2000, maximum wp 5000 cylinder matl aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
