Overall Length:

15.000 inches

End Application:

Used on smith eastern "papce" model portable air pollution control units (collectors).

Special Features:

Designed to overcome static pressure and generate cfm required for application. Aluminum, airfoil design, 7/8 in. Bore with 1/4 in x 1/8 in.

Keyway. Directly coupled to motor

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
