Criticality Code Justification:

Zzzy

General Description:

5200btu per hr cap., vapor temp minus 20deg f at 95deg f ambient temp, refrigerate to be r-502, power source-440vac-3ph-60hz

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
