Criticality Code Justification:

Zzzy

General Description:

Steel alloy 4340 per mil-s-5000 cond c; coat with electroless nickel per mil-c-26074; heat treat to obtain a hardness of brinell 270-310 (rc 28-34); base material finish with 125 microinch; 1.750 in. Od, 3.188 in. Lg

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
