Body Material:

Brass

Outside Surface Treatment:

Chromium

Stem Material:

Brass

Media For Which Designed:

Water, fresh

Inlet Location:

Left side and right side

Seat Material:

Any acceptable

Usage Design:

Exposed pipe

Flow Control Device:

Diaphragm

Flow Control Device Material:

Brass

Valve Operation Method:

Handle

End Connection Quantity:

2

Operating Mechanism Angle From Inlet In Deg:

180.0

Flush Type:

Pressure

Special Features:

1in.Inlet connection, 1.500 in. Outlet connection designed for 1in. Pipe

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07100
