Body Material:

Brass

Outside Surface Treatment:

Chromium

Body Style:

Flush valve (enclosed type)

Stem Material:

Brass

Media For Which Designed:

Water, fresh

First End Connection Type:

Threaded external pipe

First End Style Designator:

Plain

First End Pipe Size Accommodated:

0.750 inches

First End Thread Direction:

Right-hand

Second End Relationship With First End:

Identical

Inlet Location:

Back

Seat Material:

Brass

Usage Design:

Concealed pipe

Flow Control Device:

Diaphragm

Flow Control Device Material:

Brass

Valve Operation Method:

Push button

End Connection Quantity:

2

Flush Type:

Pressure

Specification Or Standard:

E part and 3 type and 2 style and d model

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07100
