Body Material:

Brass

Outside Surface Treatment:

Chromium

Body Style:

Flush valve (exposed type)

Stem Material:

Brass

Media For Which Designed:

Water, fresh

First End Connection Type:

Threaded external pipe

First End Style Designator:

Plain

First End Pipe Size Accommodated:

1.500 inches

First End Thread Direction:

Right-hand

Second End Relationship With First End:

Identical

Inlet Location:

Back

Seat Material:

Brass

Usage Design:

Exposed pipe

Flow Control Device:

Diaphragm

Flow Control Device Material:

Brass

Valve Operation Method:

Handle

End Connection Quantity:

2

Operating Mechanism Angle From Inlet In Deg:

180.0

Flush Type:

Pressure

Specification Or Standard:

E part and 1 type and 1 style and a model

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07100
