Body Material:

Astm alloy classification for red brass

Body Style:

Flush valve (exposed type)

First End Connection Type:

Unthreaded external tube

First End Style Designator:

Plain

Second End Relationship With First End:

Identical

Inlet Location:

Right side

Usage Design:

Concealed pipe

Flow Control Device:

Any acceptable

End Connection Quantity:

2

Operating Mechanism Angle From Inlet In Deg:

180.0

Flush Type:

Pressure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07100
