Body Material:

Brass, astm b124, alloy no. 2 and rubber, synthetic

Outside Surface Treatment:

Chromate

Body Style:

Flush valve (exposed type)

First End Connection Type:

Threaded internal pipe

Second End Relationship With First End:

Identical

Seat Material:

Rubber, synthetic

Usage Design:

Concealed pipe

Flow Control Device:

Piston, spring loaded

End Connection Quantity:

2

Flush Type:

Pressure

End Application:

Urinal

Product Name:

Naval model flushometer, model 150 (concealed flush valve)

Special Features:

When ordering, must specify gallon capacity (1.6 or 3.5) and wall thickness

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07100
