Terminal Quantity:

2

Element Radiation Specification:

Far infrared

Element Connection Style:

Wire lead w/terminal lug

Terminal Length:

6.000 inches

Length:

45.500 inches

Maximum Wattage Rating In Watts:

200.0 single voltage

Element Quantity:

1

Voltage In Volts And Current Type:

120.0 ac single voltage

Frequency In Hertz:

60.0

Material:

Aluminum sheath

Special Test Features:

Element bent to 13.375 in. Radius

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01900
