Maximum Operating Pressure:

150.0 pounds per square inch

Outside Surface Treatment:

Porcelain coated

Inside Surface Treatment:

Glass, fused

Heating Element Type:

Single

Overall Height:

24.750 inches

Overall Diameter:

18.250 inches

Switch Type:

Single throw

Insulated Feature:

Included

Heating Capacity Per Hour:

8.2 gallons

Thermostatic Switch:

Included

Tank Capacity:

20.0 gallons

Heating Element Wattage Rating:

200.000 single

Material:

Steel

Material:

Steel

Specification Or Standard:

A group and 1 series and 4 type and 20 size and model rd

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T285-a
