Maximum Operating Pressure:

150.0 pounds per square inch

Outside Surface Treatment:

Enameled

Inside Surface Treatment:

Glass, fused

Mounting Position:

Vertical

Specific Gas For Which Designed:

Natural gas

Insulated Feature:

Included

Operating Control Method:

Automatic

Tank Capacity:

30.0 gallons

Water Inlet Connection Thread Size And Series/type Designator:

3/4-14 npt

Water Outlet Connection Thread Size And Series/type Designator:

3/4-14 npt

Water Inlet Connection Quantity:

1

Water Outlet Connection Quantity:

1

Gas Connection Quantity:

1

Gas Connection Thread Size And Series/type Designator:

1/2-14 npt

Flue Pipe Size:

3.000 inches

Environmental Attribute Code:

Water heaters, gas, residential - energy star-heating and cooling - energy efficient products

Special Features:

Min hourly input rating 30,000 btu

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T285-b
