Gas Water Heater - Page 1 of 2

View Online at https://aerobasegroup.com/nsn/4520-00-203-1034

Maximum Operating Pressure:
150.0 pounds per square inch
Outside Surface Treatment:
Enameled
Inside Surface Treatment:
Glass, fused
Mounting Position:
Vertical
Specific Gas For Which Designed:
Natural gas
Insulated Feature:
Included
Operating Control Method:
Automatic
Tank Capacity:
30.0 gallons
Water Inlet Connection Thread Size And Series/type Designator:
3/4-14 npt
Water Outlet Connection Thread Size And Series/type Designator:
3/4-14 npt
Water Inlet Connection Quantity:
1
Water Outlet Connection Quantity:
1
1 Gas Connection Quantity:
Gas Connection Quantity:
Gas Connection Quantity:
Gas Connection Quantity:  1 Gas Connection Thread Size And Series/type Designator:
Gas Connection Quantity:  1  Gas Connection Thread Size And Series/type Designator:  1/2-14 npt
Gas Connection Quantity:  1  Gas Connection Thread Size And Series/type Designator:  1/2-14 npt  Flue Pipe Size:
Gas Connection Quantity:  1  Gas Connection Thread Size And Series/type Designator:  1/2-14 npt  Flue Pipe Size:  3.000 inches
Gas Connection Quantity:  1  Gas Connection Thread Size And Series/type Designator:  1/2-14 npt  Flue Pipe Size:  3.000 inches  Environmental Attribute Code:
Gas Connection Quantity:  1 Gas Connection Thread Size And Series/type Designator:  1/2-14 npt Flue Pipe Size:  3.000 inches Environmental Attribute Code:  Water heaters, gas, residential - energy star-heating and cooling - energy efficient products
Gas Connection Quantity:  1 Gas Connection Thread Size And Series/type Designator:  1/2-14 npt Flue Pipe Size:  3.000 inches Environmental Attribute Code:  Water heaters, gas, residential - energy star-heating and cooling - energy efficient products  Special Features:
Gas Connection Quantity:  1 Gas Connection Thread Size And Series/type Designator:  1/2-14 npt Flue Pipe Size:  3.000 inches Environmental Attribute Code:  Water heaters, gas, residential - energy star-heating and cooling - energy efficient products  Special Features:  Min hourly input rating 30, 000 btu
Gas Connection Quantity:  1 Gas Connection Thread Size And Series/type Designator:  1/2-14 npt Flue Pipe Size: 3.000 inches Environmental Attribute Code:  Water heaters, gas, residential - energy star-heating and cooling - energy efficient products Special Features:  Min hourly input rating 30, 000 btu Material:
Gas Connection Quantity:  1 Gas Connection Thread Size And Series/type Designator:  1/2-14 npt Flue Pipe Size: 3.000 inches Environmental Attribute Code: Water heaters, gas, residential - energy star-heating and cooling - energy efficient products Special Features: Min hourly input rating 30, 000 btu Material: Steel
Gas Connection Quantity:  1 Gas Connection Thread Size And Series/type Designator:  1/2-14 npt Flue Pipe Size:  3.000 inches Environmental Attribute Code:  Water heaters, gas, residential - energy star-heating and cooling - energy efficient products  Special Features:  Min hourly input rating 30, 000 btu  Material:  Steel Shelf Life:
Gas Connection Quantity:  Gas Connection Thread Size And Series/type Designator:  1/2-14 npt  Flue Pipe Size: 3.000 inches  Environmental Attribute Code:  Water heaters, gas, residential - energy star-heating and cooling - energy efficient products  Special Features:  Min hourly input rating 30, 000 btu  Material:  Steel  Shelf Life:  N/a
Gas Connection Quantity:  Gas Connection Thread Size And Series/type Designator:  1/2-14 npt  Flue Pipe Size: 3.000 inches  Environmental Attribute Code:  Water heaters, gas, residential - energy star-heating and cooling - energy efficient products  Special Features:  Min hourly input rating 30, 000 btu  Material:  Steel  Shelf Life:  N/a
