| Mounting Method Style:               |
|--------------------------------------|
| Clamp type mounting facility         |
| Terminal Quantity:                   |
| 4                                    |
| Width:                               |
| 9.500 inches                         |
| Overall Length:                      |
| 18.000 inches                        |
| Element Radiation Specificationtrum: |
| Noninfrared                          |
| Maximum Wattage Rating In Watts:     |
| 2000.0 single voltage                |
| Element Quantity:                    |
| 1                                    |
| Voltage In Volts And Current Type:   |
| 440.0 ac single voltage              |
| Special Features:                    |
| 2.000 in. H, o/a                     |
| Material:                            |
| Steel sheath                         |
| Fsc Application Data:                |
| Range, electric                      |
| Shelf Life:                          |
| N/a                                  |
| Unit Of Measure:                     |
|                                      |
|                                      |
| Demilitarization:                    |
| <b>Demilitarization:</b> No          |
