Maximum Operating Pressure:

150.0 pounds per square inch

Fabrication Method:

Welded

Overall Length:

60.000 inches

Thread Size:

1 - 11-1/2 npt

Overall Diameter:

20.000 inches

Mounting Position:

Vertical

Insulated Feature:

Not included

Accessory Components And Quantity:

Any acceptable

Tank Capacity:

82.0 gallons

Connection Quantity:

6

Special Features:

Glass lined

Material:

Steel

Material:

Steel

Surface Treatment:

Zinc-coated

Surface Treatment:

Zinc-coated

Specification Or Standard:

4 type and 3 class and 82 size

Departure From Cited Designator:

As modified by length, diameter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T114-a
