Overall Length:

4.125 inches

Element Radiation Specification:

Noninfrared

Element Connection Style:

Medium screw

Length:

3.906 inches

Maximum Wattage Rating In Watts:

1000.0 single voltage

Element Quantity:

1

Voltage In Volts And Current Type:

110.0 ac single voltage

Frequency In Hertz:

60.0

Material:

Porcelain resistance wire embedding/support insulation

Reference Number Differentiating Characteristics:

As differentiated by volts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900
