Element Radiation Specification:

Noninfrared

Element Connection Style:

Wire lead w/terminal lug

Watt Density Rating:

60.0 per square inch single voltage

Maximum Wattage Rating In Watts:

500.0 single voltage

Element Quantity:

1

Voltage In Volts And Current Type:

480.0 ac single voltage

Frequency In Hertz:

60.0

Material:

Manganese nickel resistance wire

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900
