Maximum Operating Pressure:

127.5 pounds per square inch

Outside Surface Treatment:

Enameled

Inside Surface Treatment:

Glass, fused

Overall Height:

75.000 inches

Overall Diameter:

30.250 inches

Mounting Position:

Vertical

Specific Gas For Which Designed:

Natural gas or propane

Furnished Items:

Hi-limit control

Insulated Feature:

Included

Operating Control Method:

Automatic

Tank Capacity:

100.0 gallons

Water Inlet Connection Quantity:

2

Water Outlet Connection Quantity:

2

Gas Connection Quantity:

1

Flue Pipe Size:

6.000 inches

Environmental Attribute Code:

Water heaters, gas, residential - energy star-heating and cooling - energy efficient products

Special Features:

hourly input rating 75, 000 btu

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T285-b
