| Mounting Method Style:                       |
|--|
| Screw plug or bushing type mounting facility |
| Body Style:                                  |
| Tubular, threaded terminals                  |
| Terminal Quantity:                           |
| 2  |
| Overall Length:                              |
| 14.500 inches                                |
| Element Radiation Specificationtrum:         |
| Noninfrared                                  |
| Element Connection Style:                    |
| Stud type                                    |
| Terminal Length:                             |
| 0.750 inches                                 |
| Mounting Facility Length:                    |
| 1.500 inches                                 |
| Heat Quantity:                               |
| 1  |
| Watt Density Rating:                         |
| 51.2 per square inch single voltage          |
| Length:                                      |
| 10.563 inches                                |
| Maximum Wattage Rating In Watts:             |
| 2000.0 single voltage                        |
| Element Quantity:                            |
| 1  |
| Thread Size:                                 |
| 0.190 inches stud                            |
| Thread Quantity:                             |
| 8.0 per inch mounting facility               |
| Voltage In Volts And Current Type:           |
| 440.0 ac single voltage                      |
| Phase:                                       |
| Not rated single voltage                     |
| Special Features:                            |
| Elements to be vitreous enamel coated        |
| Material:                                    |
| Steel sheath                                 |
| Thread Series Designator:                    |
| Unf stud                                     |
| Shelf Life:                                  |
