Overall Height:

12.000 inches

Overall Width:

24.000 inches

Frame Type:

Angle

Frame Removability:

Nonremovable

Grille Quantity:

1

Deflector Blade Operating Method:

Key

Blade Vertical Surface Axis Position:

Any acceptable

Special Features:

Adjustable louvers front set horizontal, rear set vertical, opposed blade damper attached, aluminum blades 0.051 in. Thk and furnishe w/gasket and standard screw no. 8 by 1.250 in. Oval head

Material:

Steel or aluminum

Material:

Steel or aluminum

Shape:

Rectangular

Surface Treatment:

Enamel

Reference Number Differentiating Characteristics:

As differentiated by dimensions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T114-a
