Body Style:

Odd/irregular shaped items

Width:

0.530 inches

Overall Length:

3.810 inches

Effective Heating Length:

3.750 inches

End Application:

Nsn6605010590488, inertial measurement unit

Element Quantity:

1

Material:

Plastic polyamide resistance wire embedding/support insulation

Material Specification:

Qq-r-175, comp d federal specification single material response resistance wire

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900

Mil-std (military Standard):

Mil-p-46112 spec.
