Mounting Method Style:

Wrap around type mounting facility

Element Radiation Specification:

Noninfrared

Element Connection Style:

Wire lead

Element Quantity:

4

Voltage In Volts And Current Type:

115.0 ac single voltage

Special Features:

Flame retardant material construction

Frequency In Hertz:

400.0

Material:

Glass fiber resistance wire embedding/support insulation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01900
