| Mounting Type:                          |
|---|
| Floor surface, free standing, nonducted |
| Heat Medium Type:                       |
| Air                                     |
| Heat Outlet Quantity:                   |
| 1                                       |
| <b>Heat Delivery Direction:</b>         |
| Horizontal                              |
| Heat Discharge Outlet Type:             |
| Stationary                              |
| Heat Directing Device:                  |
| Fixed louver                            |
| Air Circulation Device:                 |
| Propeller fan                           |
| Speed Adjustments:                      |
| Single speed                            |
| Circulated Air Type:                    |
| Cooling or heated                       |
| Width:                                  |
| 12.500 inches                           |
| Current Type:                           |
| Ac                                      |
| Depth:                                  |
| 12.125 inches                           |
| Prime Mover Type:                       |
| Electric motor                          |
| Operating Control Type:                 |
| Hand switch                             |
| Current Rating In Amps:                 |
| 8.7                                     |
| Heating Element Type:                   |
| Electric nonimmersion                   |
| Inclosure Material:                     |
| Steel                                   |
| Heat Delivery Rate:                     |
| 3412.0 british thermal unit             |
| Voltage In Volts:                       |
| 115.0                                   |
| Phase:                                  |
| Single                                  |
| Frequency In Hertz:                     |
| 50.0 or 60.0                            |
