Width:

7.500 inches

Overall Length:

8.500 inches

Element Radiation Specification:

Noninfrared

Heat Quantity:

1

Watt Density Rating:

11.8 per square inch single voltage

Maximum Wattage Rating In Watts:

750.0 single voltage

Element Quantity:

1

Voltage In Volts And Current Type:

24.0 dc single voltage

Special Features:

1.50 in. Thk; terminal connection box provided; cooling grid cast w/element

Material:

Aluminum sheath

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900
