Body Style:

Cable, band or tape type

Element Radiation Specification:

Noninfrared

Element Connection Style:

Odd/irregular shaped items

Heat Quantity:

3

Maximum Wattage Rating In Watts:

96.0 single voltage

Element Quantity:

1

Voltage In Volts And Current Type:

120.0 ac single voltage

Special Features:

Thermostat pouch and pilot light at one end

Material:

Any acceptable resistance wire

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01900
