End Application:

Weapon system code ja, binimitz class cvn 74/75

Accessory Components And Quantity:

Includes steam control valve 1-4in. Class gpbcn assembly; constantemp blend valve; constantemp heater enmf-320 w/auto reset device; constantemp safety device; frame assembly; heat exchanger; constantemp heater recirculation kit

Pressure Rating:

75.0 pounds per square inch and 150.0 pounds per square inch

Special Features:

Outlet water temp 160.0deg; 20.0gpm cap

Material:

Iron and steel

General Description:

With recirculation kit; heater connections 2-1/2in. 150.0lb flange; heat exchanger connections 150.0lb ansi b16.5 flange; water connections stub weld

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
