Terminal Quantity:

2

Element Radiation Specification:

Noninfrared

Heat Quantity:

1

Watt Density Rating:

2.5 per square inch single voltage

End Application:

6630-00-251-2118

Maximum Wattage Rating In Watts:

300.0 single voltage

Element Quantity:

1

Voltage In Volts And Current Type:

120.0 ac single voltage

Product Name:

Condenser heater

Phase:

Single single voltage

Special Features:

Approximately 10in. O/a length and 3in. Wide. U-shaped tubular

Frequency In Hertz:

50.0 and 60.0

Material:

Copper sheath

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900
