Effective Heating Length:

15.620 inches

Heat Control Type:

Thermostat

Thermostat Range:

+40.0/+100.0 degrees fahrenheit

End Application:

Electric convection heater; valid electric heating corp; model dfmh41.5-1nm; w/s strategic sealift conversion ships class

Element Quantity:

3

Voltage In Volts And Current Type:

440.0 ac single voltage

Material:

Stainless steel sheath

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900
