**Effective Heating Length:**

15.620 inches

**Heat Control Type:**

Thermostat

**Thermostat Range:**

+40.0/+100.0 degrees fahrenheit

**End Application:**

Electric convection heater; valid electric heating corp; model dfmh41.5-1nm; w/s strategic sealift conversion ships class

**Element Quantity:**

3

**Voltage In Volts And Current Type:**

440.0 ac single voltage

**Material:**

Stainless steel sheath

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A01900
